MEMORANDUM FOR THE RECORD

SUBJECT: Meeting to Review Exercise Room Preliminary Layout -
9 September 1983 []

PARTICIPANTS:

[] Clinical Activities Division, OMS
New Building Project Office, OL
New Building Project Office, OL []

1. The purpose of the meeting was to review the Preliminary Design layout for the exercise room in the new building.

[] reviewed the drawing provided by the A-E firm and approved the concept as drawn. He did request that provision be made for an additional office which may be required in the future. It was agreed that this additional office could be addressed during fit-up. []

2. [] also noted that he had visited George Mason University exercise facility and that he would probably opt for a similar floor covering to that which they are using. They have a covering called CHEMTURF, which can be poured on concrete, has low maintenance, and is sturdy enough for the Nautilus machines to sit on. []
